15. Authorized Signature	16. Approval /Authorization No:	20. Authorized Signature. 	21. Approval/Certificate No RF3R813L
17. Name (Type or Print)	18. Date (m/d/y):	22. Name (Type or Print) Francisco Sierra	23. Date (MMDDYYYYY): Dec-21-2012

**User / Installer Responsibilities**

It is important that the existence of the document alone does not automatically constitute authority to install the part, component, or assembly above.

When the user / installer performs the work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that that user / installer ensures that his/her airworthiness authority accepts parts, components, and or assemblies from the airworthiness authority of the country specified in Block 1.

Statements in Block 14 and 19 do not constitute installation certification. In all cases aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.
