1. Approving Civil Aviation Authority/Country:	2.	3. Form Tracking Number:
FAA/United States	**AUTHORIZED RELEASE CERTIFICATE** **FAA Form 8130–3, AIRWORTHINESS APPROVAL TAG**	MAG1452411-03

4. Organization Name and Address:	5. Work Order/Contract/Invoice Number:
MAG Inc. 777 American Drive. Bensalem, PA. 19020	MAG1452411

6. Item:	7. Description:	8. Part Number:	9. Quantity:	10. Serial Number:	11. Status/Work:
1	Drive Shaft (Engine/Trans)	109-0415-10-101	1	Q143	Inspected

12. Remarks:

Performed inspection of Engine Rotor Drive shaft in accordance with AW119 IETP AMP 19-A-63-10-01-00A-280A-A. Issue 30 2023/07/24
Current component time 4118.3
-END-

The work identified in Block 11/12 was carried out in accordance with EASA Part 145 and in respect to that work the Engine Drive Shaft is considered ready for release to service under EASA Part 145 approval # EASA 145-6939

13a. Certifies the items identified above were manufactured in conformity to:		14a. ☑ 14 CFR 43.9 Return to Service ☑ Other regulation specified in Block 12	
☐ Approved design data and are in a condition for safe operation. ☐ Non-approved design data specified in Block 12.		Certifies that unless otherwise specified in Block 12, the work identified in Block 11 and described in Block 12 was accomplished in accordance with Title 14, Code of Federal Regulations, part 43 and in respect to that work, the items are approved for return to service.	
13b. Authorized Signature:	13c. Approval/Authorization No.:	14b. Authorized Signature: QA-23 MAG 145	14c. Approval/Certificate No.: 7SER066B
13d. Name (Typed or Printed):	13e. Date (dd/mmm/yyyy):	14d. Name (Typed or Printed): Seth Bolint	14e. Date (dd/mmm/yyyy): 4/24/24

User/Installer Responsibilities

It is important to understand that the existence of this document alone does not automatically constitute authority to install the aircraft engine/propeller/article.

Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts aircraft engine(s)/propeller(s)/article(s) from the airworthiness authority of the country specified in Block 1.

Statements in Blocks 13a and 14a do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.
